#### Important Health Warning: Photosensitive Seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people with no history of seizures or epilepsy may have an undiagnosed condition that can cause “photosensitive epileptic seizures” while watching video games. Symptoms can include light-headedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, momentary loss of awareness, and loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects. **Immediately stop playing and consult a doctor if you experience any of these symptoms.** Parents, watch for or ask children about these symptoms—children and teenagers are more likely to experience these seizures. The risk may be reduced by being farther from the screen; using a smaller screen; playing in a well-lit room, and not playing when drowsy or fatigued. If you or any relatives have a history of seizures or epilepsy, consult a doctor before playing.

# WELCOME TO F1 2013

F1 2013 features all the stars and cars from the 2013 FIA FORMULA ONE WORLD CHAMPIONSHIP™. Compete for motorsport's ultimate prize over five seasons in Career mode, join up with a friend in Co-Op Championship mode and prove yourself online as you become immersed in the world of FORMULA ONE™.

F1 2013 includes a host of new improvements and enhancements, including new handling to reflect the 2013 season cars and tires plus all of the 2013 season rule changes. Additional new features include F1 Classics - a brand new game mode which features classic FORMULA ONE cars and the drivers who made history in them - and Scenario Mode where you'll complete challenges that reflect the on-track progress of a FORMULA ONE driver from rookie to retirement.

# STARTING OUT AUTOSAVE

If your Xbox 360 has an Xbox 360 Hard Drive, Xbox 360 Memory Unit or USB flash drive connected, F1 2013 will automatically save your game at specific points. You can disable the Autosave feature by entering the My F1 menu and editing your Save Game Settings.

# MENU NAVIGATION

Use the left stick to navigate through menus. Press **A** to confirm a selection or **B** to cancel/back up. Tool tips are also provided to help you navigate through each screen.

# GOLDEN QUESTIONS

Upon pressing the START button for the very first time you will be asked a series of questions. These allow the creation of your Save Game Settings and set up an initial difficulty level for you.

You can edit your Save Game Settings at any time by accessing the My F1 menu.

# DRIVING ASSISTS

You can change your Driving Assists by selecting Difficulty Level from the Race Settings screen prior to entering a session. Alternatively, Driving Assists can be modified from the in-race Pause menu.

# REPLAYS & FLASHBACKS

## REPLAYS

You can view a Replay at any time by selecting the option from the in-game Pause menu. You can also view a Replay of your race once it has ended.

## FLASHBACKS

Recover from mistakes seamlessly by using F1 2013's Flashback system. Just hit the **BACK** button to enter an Instant Replay and rewind your race to a point before the incident, then press **X** to Flashback to that point and resume racing.

Remember that you have a limited number of Flashbacks per session, so use them wisely!

# NEW MID-SESSION SAVE

Mid-Session Save allows you to save your game at any point during a session and then return to it at a later time. With Mid-Session Save, you now have the opportunity to complete a full race weekend at your own convenience.

To access Mid-Session Save, simply pause the game during a race weekend and select Mid-Session Save. From here you can Save, Load or Save and Exit to Main Menu. If you enter a game mode with an existing Mid-Session Save, you will be asked if you would like to resume from your save or create a new session.

# THE ON-TRACK GAME SCREEN

The game screen provides a wealth of useful information about your car and the current race. Please note that some screen elements require a player input or event to occur before they will be displayed.

RaceNet™, the free online extension for Codemasters Racing games which tracks your races, rivals and rewards, extends your F1 2013 experience. Track your progress online, earn RaceNet achievements, enter community events and more.
